Key Insights

- Sales show a consistent upward trend from 2014 to 2017, indicating strong business growth.
- Profit has increased alongside sales, but at a slightly lower rate, suggesting margin pressure.
- Technology category contributes the highest share of returns, impacting overall profitability.
- The Western region demonstrates the highest sales concentration, making it a key revenue driver.
- Average delivery time of ~34 days is relatively high and may affect customer satisfaction.
- Return rate of ~8% indicates a moderate level of product returns, requiring operational attention.
- Month-over-Month growth is positive in recent periods, showing short-term performance improvement.
